READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

GOVERNOR'S OFFICE

Proclamation of Disaster Emergency

January 30, 2004

Whereas, On January 24, 2004, a 34-year-old bridge carrying the two northbound lanes of Pennsylvania Route 33 over Bushkill Creek in Northampton County was closed due to settlement of one of its piers to a depth of 10 inches caused by a sinkhole that developed beneath its footing; and

Whereas, the affected bridge structures lie above a sinkhole-prone geologic formation raising the possibility that further investigation may reveal additional voids requiring additional efforts to stabilize the Pennsylvania Route 33 bridge structures; and

Whereas, the settlement of the bridge and the subsequent closing of the northbound lanes of Pennsylvania Route 33 has created serious disruption to transportation and commerce in the area by severing travel and trade of commercial products and by seriously interfering with the ability of residents to travel from their places of residence to their places of business or other sources of livelihood; and

Whereas, in addition to the economic aspects of this disaster, there is serious concern for the public safety and well-being of residents located in the immediate vicinity of the damaged bridge; and

Whereas, the Pennsylvania Department of Transportation has requested emergency procedures to stabilize the bridge and build crossovers to carry the northbound traffic onto the adjacent Pennsylvania Route 33 southbound bridge; and

Whereas, it is necessary to take immediate steps to provide for the reopening of northbound Pennsylvania Route 33 and to repair and reconstruct the bridge; and

Whereas, Title 23 U.S.C. § 125 has made provisions for catastrophes in states such as the Pennsylvania Route 33 situation.

Therefore, I, Edward G. Rendell, Governor of the Commonwealth of Pennsylvania, pursuant to the provisions of Subsection 7301(c) of the Emergency Management Services Code (75 Pa.C.S. Section 7101 et seq.) do hereby proclaim an emergency to exist on Pennsylvania Route 33 in Northampton County. Immediate repair and reconstruction of the northbound Route 33 bridge and any related structures and facilities is vital to the security, well-being and health of the citizens of the Commonwealth of Pennsylvania, and the U. S. Department of Transportation Federal Highway Administration is hereby requested to concur in the declaration of emergency. In addition, I authorize the Secretary of Transportation to use all available equipment, resources and personnel of the Department and to dispense with time-consuming bid and contract procedures and formalities, in whatever manner he deems necessary, to insure that the damage to the bridge at northbound Route 33 and related facilities and structures is repaired as expeditiously as possible. I hereby waive any laws or regulations that would restrict the application and use of the Department's equipment, resources and personnel to respond immediately and effectively in repairing, reconstructing or replacing this highway and related facilities, in conducting any detour operations, and in undertaking any new construction, as required.

Given under my hand and the Seal of
the Governor in the City of Harris-
burg this thirtieth day of January

in the year of our Lord two thousand four and of the commonwealth the two hundred and twenty-eighth.

A handwritten signature in black ink, reading "Edmund G. Rendell". The signature is written in a cursive, slightly slanted style.

PROPOSED RULEMAKING

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CH. 76]

Food Employee Certification

The Department of Agriculture (Department) proposes to amend Chapter 76 (relating to food employee certification) to read as set forth in Annex A.

Statutory Authority

Chapter 65 of 3 Pa.C.S. (relating to the Food Employee Certification Act) (act) provides the legal authority for this proposed rulemaking. Sections 6503(d) and 6505 of 3 Pa.C.S. (relating to certification advisory board and programs; and rules and regulations), respectively: (1) require the Department to adopt food safety protection and training standards for the certification of supervisory employees who are responsible for the storage, preparation, display or serving of food to the public in establishments regulated by the Department or local health organizations; and (2) delegate to the Department the power to adopt regulations necessary for the proper enforcement and administration of the act. The act also requires that regulations be promulgated with the approval of the Food Employee Certification Advisory Board (Board). The Board approved this proposed rulemaking at its October 6, 2003, meeting.

Purpose

Chapter 76 took effect in October 1999. The act was subsequently amended by the act of December 20, 2000 (P.L. 934, No. 124) (Act 124) and then by the act of December 9, 2002 (P.L. 1495, No. 190) (Act 190). The purpose of the proposed rulemaking is to implement the statutory changes wrought by the amendments to the act.

Background

The act was the product of an industry-driven initiative to establish minimum food safety training requirements to be met by at least one supervisory employee in most food establishments in this Commonwealth.

Act 124 revised the act by: (1) deleting the requirement that these food safety training requirements be "industry-specific"; (2) extending the date by which food establishments must come into compliance with the act by 2 years (from July 1, 2001, to July 1, 2003); (3) exempting certain food establishments operated by charitable and nonprofit organizations from the requirements of the act; and (4) requiring the Department to develop a food safety training program for those organizations that—although exempt from the requirements of the act—elect to voluntarily seek certification under the act.

Act 190 revised the act by: (1) extending the date by which food establishments must come into compliance with the act by another year (from July 1, 2003, to July 1, 2004); (2) expanding the membership of the Board; and (3) requiring the Department to promulgate regulations (approved by the Board) by July 1, 2004, establishing training programs consistent with the revised act.

The proposed rulemaking is required to be promulgated as a final-form rulemaking by July 1, 2004. The act requires that the Department consider a number of factors in writing the rulemaking, among them: (1) the

existence and operation of Department-approved employee training programs on safe food handling; (2) the fact that some food establishments engage in only the limited handling of potentially hazardous food; (3) the number of hours necessary to train food establishment employees to handle food safely, with consideration of the "scope" of the food establishment's business; and (4) the demonstration necessary for the Department to be satisfied that a particular supervisory employee is proficient in the safe handling of food. The Department has given consideration to all of these factors in the drafting of the proposed rulemaking.

Need for the Proposed Rulemaking

This proposed rulemaking is needed to implement the changes to the act under Act 124 and Act 190.

Overview of the Major Provisions of the Proposed Rulemaking

Proposed § 76.1 (relating to compliance) specifies that the date by which compliance with the act becomes mandatory is July 1, 2004 (rather than the rescinded July 1, 2001, mandatory compliance date). It also restates the new statutory exemption for certain food establishments operated by charitable and nonprofit organizations.

Proposed § 76.2 (relating to definitions) is shortened considerably. Many of the terms defined in this section relate to industry-specific categories of food safety training programs. These industry-specific programs are no longer required, and the related defined terms are no longer needed.

Proposed § 76.3 (relating to requirements for food establishments) deletes the classification of food establishments into industry-specific categories. The section references a "general" certification category that will suffice for all certified supervisory employees. It would also afford a person the option to undergo less extensive training if the person seeks to be a certified supervisory employee at a food establishment that: (1) engages in limited, specific food processing activities; (2) engages in only the limited handling of potentially hazardous foods; or (3) is a nonprofit entity that is exempt from having to comply with the act but that seeks certification nonetheless.

Proposed §§ 76.4 and 76.10(a) (relating to eligibility to apply for certification; and applying for certification) are amended by adding language affording a prospective applicant for certification 5 years from the successful completion of an approved certification training program and certification examination within which to apply for certification. Beyond that period, it would be necessary for the prospective applicant to complete another approved certification training program to be eligible to apply. This requires prospective applicants to have relatively recent food safety training to be eligible to apply for certification. The current provision places no time restrictions on this application period.

Proposed § 76.5 (relating to certification training programs: Obtaining the Department's approval) describes four general categories of certification training programs. Training that fits within the "general" category would be acceptable for a certified supervisory employee at any type of food establishment. There are three other categories that address special circumstances when less expansive training would suffice to meet the requirements of the act.

Proposed § 76.7 (relating to certification training programs: Food safety protection and training standards) deletes detailed, industry-specific training requirements and replaces them with designations of the general subject matter to be addressed in each of the four general categories of certification training.

Proposed § 76.8 (relating to format of a certification examination) sets forth the basic requirements for passing food certification training in each of the four general categories of certification training.

The proposed rulemaking deletes § 76.18 (relating to Advisory Board), since it simply restates the provisions of the act describing the composition and function of the Board.

Affected Individuals and Organizations

The proposed rulemaking implements changes prescribed by Act 124 and Act 190. Impact upon individuals or organizations is the result of Act 124 or Act 190, and not the proposed rulemaking. Act 124 exempts certain food establishments operated by charitable and nonprofit organizations from the requirements of the act. This will result in saving these organizations the cost of obtaining previously required training and certification for a supervisory employee. For exempt organizations that elect to voluntarily comply with the act, the Department will develop and offer a training course for employees of the organizations. Act 124 also leaves open the option for the General Assembly to appropriate funds to help these organizations defray the cost of the training offered by the Department.

Fiscal Impact

Commonwealth: The proposed rulemaking imposes some costs upon the Commonwealth. The Department estimates its costs in administering the certification requirements imposed by the act at \$15,000 per year until July 1, 2004 (the date beyond which compliance with the certification requirements becomes mandatory), and \$30,000 per year starting July 1, 2004.

Political Subdivisions: The proposed rulemaking imposes no costs and has no fiscal impact upon political subdivisions.

Private Sector: The proposed rulemaking imposes no costs and has no fiscal impact upon the private sector. The changes to the act accomplished by Act 124 and Act 190 relieve food establishments operated by certain exempt charitable and nonprofit organizations from the cost of training and certification if a supervisory employee. These cost savings cannot be readily quantified, and are the product of the referenced legislation, rather than the proposed rulemaking. The overall cost of compliance with the certification requirements imposed by the act is estimated at \$2 million (approximately 100,000 affected food establishments, multiplied by the minimum \$20 fee prescribed by the act). This figure excludes the costs of obtaining the training required as a prerequisite to certification.

General Public: The proposed rulemaking imposes no costs and has no fiscal impact upon the general public. Although food establishments may incur some costs in obtaining certification for a supervisory employee, these costs are expected to be modest. Additionally, since the act has been amended to exempt more types of food establishments from its requirements, these exempt food establishments will no longer be required to bear the costs of compliance.

Paperwork Requirements

The proposed rulemaking is not expected to have an appreciable impact upon the Department's paperwork volume.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Sunset Date

There is no sunset date for the proposed rulemaking. The Department will review the efficacy of these regulations on an ongoing basis.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 4, 2004, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Standing Committees on Agriculture and Rural Affairs. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment Period/Contact Person

Interested persons are invited to submit written comments regarding the proposed rulemaking within 30 days following publication in the *Pennsylvania Bulletin*. Comments may be submitted to the Department of Agriculture, Bureau of Food Safety and Laboratory Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, Attention: Martha M. Melton.

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 103]

Vehicles Required to Stop at Railroad Grade Crossings

The Department of Transportation (Department), Bureau of Highway Safety and Traffic Engineering (Bureau), under the authority in 75 Pa.C.S. §§ 6103, 6105, 6121, and 6122, proposes to delete Chapter 103 (relating to vehicles required to stop at railroad grade crossings) to read as set forth in Annex A.

Purpose of this Chapter

Chapter 103 describes the type of motor vehicles required to stop at crossing where a railroad track crosses a highway at grade. Chapter 103 was mandated by 75 Pa.C.S. § 3342(d) (relating to vehicles required to stop at railroad grade crossings).

Purpose of this Proposed Rulemaking

The purpose of this proposed rulemaking is to delete Chapter 103. Chapter 103 is no longer needed because 75 Pa.C.S. § 3342(d) was amended by the act of December 21 1998 (P. L. 1126, No. 151) and no longer requires the Department to adopt regulations describing the vehicles which must comply with the stopping requirements at railroad grade crossings. Section 3342(d) of 75 Pa.C.S. now mandates that the Department publish, as a notice in the *Pennsylvania Bulletin*, a list of the vehicles that must stop at railroad grade crossings.

On February 17, 2001, the Department, acting through the Bureau, and in compliance with 75 Pa.C.S. § 3342(d), published a notice at 31 Pa.B. 1007 (February 17, 2001) designating the vehicles which must comply with the stopping requirements in 75 Pa.C.S. § 3342. In the course of determining the types of vehicles to be included in the list, the Department adopted the same criteria as contained in 49 CFR 392.10 (relating to railroad grade

crossings; stopping required). Prior to publication, the Bureau circulated the proposal internally within the Department, with the Pennsylvania State Police, Bureau of Patrol, and the Pennsylvania Public Utility Commission, Bureau of Transportation and Safety.

Persons and Entities Affected

This proposed rulemaking affects Commonwealth law enforcement, the motoring public and the operators of buses and commercial motor vehicles that, in accordance with the regulations of the United States Department of Transportation, as contained in 49 CFR 392.10 (relating to railroad grade crossings; stopping required), are required to stop at railroad grade crossings.

Fiscal Impact

Deleting Chapter 103 will not impose any increased costs on private persons, State or local governments. This action will not occasion the development of any additional reports or other paperwork.

Effective Date

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 4, 2004, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Transportation Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Sunset Date

The Department is not establishing a sunset date for this proposed rulemaking since Chapter 103 is being deleted as no longer needed to administer provisions required under 75 Pa.C.S. (relating to the Vehicle Code).

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Arthur H. Breneman, P. INSURANCE DEPARTMENT

[31 PA. CODE CH. 147]

Annual Audited Insurers' Financial Report Required

The Insurance Department (Department) proposes to amend Chapter 147 (relating to annual audited insurers' financial report required) to read as set forth in Annex A. The rulemaking is proposed under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) relating to the general rulemaking authority of the Department; sections 320, 630, 1007 and 2452 of The Insurance Company Law of 1921 (40 P. S. §§ 443, 764a, 967 and 991.2452) relating to the authority of the Insurance Commissioner to require insurance companies, associations, exchanges, fraternal benefit societies and preferred provider organizations to file statements concerning their affairs and financial condition; sections 205 and 206 of The Pennsylvania Fair Plan Act (40 P. S. §§ 1600.205 and 1600.206); section 731 of the Medical Care Availability and Reduction of Error (MCARE) Act (40 P. S. § 1303.731); 40 Pa.C.S. §§ 6125, 6331 and 6701 (relating to reports and examinations; reports and examinations; and regulation); sections 11 and 14 of the HMO Act (40 P. S. §§ 1561 and 1564); sections 7 and 25 of the Continuing-Care Provider Registration and Disclosure Act (40 P. S. §§ 3207 and 3225) which, respectively, relate to the specific regulatory and rulemaking authority of the Department regarding financial reporting by the Pennsylvania Fair Plan, the Pennsylvania Professional Liability Joint Underwriting Association, hospital plan corporations, professional health service corporations, beneficial associations, health maintenance organizations and continuing care providers.

Purpose

The purpose of this proposed rulemaking is to update Chapter 147, commonly referred to as the CPA Audit Rule. Chapter 147 requires insurers to have annual

audits of their year-end financial statements performed by independent certified public accountants (CPA). The annual audited financial reports are required to be filed with the Department by June 1 of each year. Chapter 147 was adopted in 1979 and is based on a model regulation developed by the National Association of Insurance Commissioners (NAIC). The model is included in the NAIC Financial Regulation Standards and Accreditation Program (NAIC Program), which was established in 1989 to set minimum standards for state regulation of the financial solvency of the insurance industry. The Department has been accredited by the NAIC for compliance with the standards since 1994. Chapter 147 was last amended in 1995 to bring it into compliance with changes to the NAIC model. The NAIC model was again revised in 2002 to address concerns about the use of indemnification clauses in the engagement of CPAs for the annual audits. In 2003, an additional revision was made to specifically require CPAs to adhere to applicable NAIC instructions and procedures in conducting audits. The updates in this proposed rulemaking include the 2002 and 2003 revisions to the NAIC model, as well as other revisions to improve the clarity of Chapter 147, particularly with respect to its applicability to continuing care providers.

Significant Provisions

Section 147.2 (relating to definitions) is being amended to add definitions of "domestic insurer" and "foreign insurer" to clarify the meaning of these terms for purposes of the chapter. In addition, the definition of "independent certified public accountant" and § 147.13(i) (relating to effective date and exemption) are being amended to clarify the current reference to "Canadian and British companies." The definition of "insurer" is being updated to reflect statutory changes relating to the types of entities regulated by the Department; add preferred provider organizations, employers' mutual liability insurance associations and the Pennsylvania Professional Liability Joint Underwriting Association; and delete the general reference to other entities acting as insurers. These changes are needed to clearly apply Chapter 147 to all types of insurers.

Sections 147.3(a) and (d) and 147.4(b)(2) (relating to filing and extensions for filing of annual audited financial report; and contents of annual audited financial report) and § 147.13(f)(1) are being amended to recognize movement toward electronic filings with the Department and the NAIC. A related amendment to § 147.11(c) (relating to definitions, availability and maintenance of independent certified public accountant workpapers) refers to the Department's ability to make and retain electronic copies of audit workpapers when conducting onsite financial examinations of insurers. In addition, § 147.4(d) is being amended to clarify what is required when errors are discovered after an annual audited financial report has been filed. Finally, § 147.4(e) is being added to outline the requirements for nonprofit and for-profit continuing care providers under generally accepted accounting principles.

Other amendments to clarify requirements relating to continuing care providers include the addition of § 147.5(d) (relating to designation of independent certified public accountant), the expansion of § 147.7(c) (relating to consolidated or combined audits), the addition of § 147.8(c) (relating to scope of audit and report of independent certified public accountant) and amendments to § 147.9(a) (relating to notification of adverse financial condition). These amendments are needed to recognize the differences in accounting and financial reporting requirements for insurers and continuing care providers.

Section 147.6 (relating to qualifications of independent certified public accountant) is being amended to include provisions consistent with the 2002 revisions to the NAIC model. The amendments prohibit a CPA from being recognized by the Department as qualified to conduct audits if the CPA's engagement with the insurer includes an agreement of indemnity, or other release from liability, that would shift, transfer or limit the CPA's potential liability for failure to adhere to applicable auditing or professional standards based on a defense that misrepresentations were made by the insurer. Also consistent with the changes made to the NAIC model is a related amendment to add § 147.6(g) permitting an insurer and a CPA to agree to have disputes resolved by mediation or arbitration, except that the agreement may be disavowed in a receivership proceeding. These amendments to the NAIC model were supported by the insurance industry and are being considered for inclusion in the NAIC Program. The new provisions are similar to United States Securities and Exchange Commission requirements that already apply to publicly held stock insurers. Therefore, the amendments to § 147.6 will establish consistent requirements for all types of insurers. Finally, a reference to the Public Company Accounting Oversight Board (Board) has been added to § 146.6(a)(2). The Board was created by the Sarbanes-Oxley Act of 2002 to oversee the audits of public companies.

Section 147.8 is being amended to strengthen requirements relating to the procedures followed by CPAs in conducting audits. The amendments are consistent with revisions made in 2003 to the NAIC model. These changes require a CPA to follow or consider NAIC instructions and procedures relating to the scope of an audit and data testing procedures. The amendments are needed to assure that consistent, up-to-date procedures are followed in the conduct of audits.

Section 147.10(a) (relating to report on significant deficiencies in internal controls) is being amended to clarify the time frame for providing the Department with reports describing any significant deficiencies in an insurer's internal control structure. The reports are required to be filed "concurrently with the filing of the annual audited financial reports" as stated in the beginning of subsection (a). The amendment clarifies the requirement by deleting the last sentence of subsection (a), which refers to a 60-day time frame.

Section 147.11(b) is being amended to delete the requirement that the engagement letter include the CPA's agreement to make workpapers available to the Department as required under § 147.11. This requirement is not needed in addition to the requirement in § 147.15(4) (relating to letter of qualifications of independent certified public accountant) that the CPA's consent to comply with § 147.11 be included in the letter of qualifications furnished to the insurer. Requiring the CPA's consent to these requirements in the letter of qualifications is consistent with the NAIC model.

Section 147.13 is being amended to update references to other sections in the chapter to reflect the impact of the proposed amendments. In addition, § 147.13(e) is being amended to replace "not transacting the business of insurance outside of this Commonwealth" with the clearer phrase "not insuring or reinsuring risks located outside of this Commonwealth" and to reflect the new definitions for "domestic insurer" and "foreign insurer." Section 147.13(i) and (j) is being deleted. These subsections established time frames for achieving compliance with the chapter when it was amended in 1995 and are no longer needed.

(2) A determination by the independent certified public accountant that the insurer does not meet its capital and surplus requirement, or that the continuing care provider does not meet its liquid

§ 147.10. Report on significant deficiencies in internal controls.

(a) Concurrently with the filing of the annual audited financial reports, each insurer shall furnish the Commissioner with a written report prepared by the independent certified public accountant describing significant deficiencies in the insurer's internal control structure noted by the independent certified public accountant during the audit. The Statement of Auditing Standard No. 60, *Communication of Internal Control Structure Matters Noted in an Audit* (AU Section 325 of the Professional Standards of the American Institute of Certified Public Accountants, Inc.) requires an independent certified public accountant to communicate significant deficiencies, known as "reportable conditions," noted during a financial statement audit to the appropriate parties within an entity. A report should not be issued if the independent certified public accountant does not identify significant deficiencies. **[If significant deficiencies are noted, the written report shall be filed annually by the insurer with the Department within 60 days after the filing of the annual audited financial report.]**

* * * * *

§ 147.11. Definitions, availability and maintenance of independent certified public accountant workpapers.

* * * * *

(b) Every insurer required to file an annual audited financial report under this chapter shall require **[within the engagement letter the agreement of]** the independent certified public accountant to make available, through the insurer, for review by Department examiners workpapers prepared in the conduct of the audit, as well as communications related to the audit between the independent certified public accountant and the insurer, including the engagement letter, at the offices of the insurer, at the offices of the independent certified public accountant, at the offices of the Department or at another reasonable place designated by the Commissioner. The insurer shall require that the independent certified public accountant retain the audit workpapers and communications for at least 7 years after the period reported on and agree to make a partner or manager available to the Department upon reasonable request.

(c) In the conduct of the periodic review by Department examiners described in subsection (b), **electronic copies** or photocopies of pertinent audit workpapers may be made and retained by the Department.

* * * * *

§ 147.13. Effective date and exemption.

* * * * *

(b) For those insurers retaining an independent certified public accountant on November 11, 1995, the 7-year period of service referred to in § 147.6 **[(c)]** **(d)** (relating to qualifications of independent certified public accountant) begins when the independent certified public accountant or other person responsible for rendering the annual audited financial report was first retained or assigned that responsibility. The requirement that an

insurer retain the services of a new independent certified public accountant in order to comply with the 7-year rotation provision in § 147.6[(c)](d) shall become effective November 11, 1997.

(c) Foreign **[or alien]** insurers having direct premiums written in this Commonwealth less than \$1 million in a calendar year and having fewer than 1,000 policyholders or certificateholders of directly written policies in this Commonwealth at the end of that calendar year shall be exempt from this chapter for that year unless the Commissioner makes a specific finding that compliance is necessary for the Commissioner to carry out statutory responsibilities. Foreign insurers having assumed premiums pursuant to contracts or treaties of reinsurance, or both, of \$1 million or more are not exempt.

* * * * *

(e) **[Insurers domiciled in this Commonwealth and not transacting the business of insurance outside]** Domestic insurers not insuring or reinsuring risks located outside of this Commonwealth having total admitted assets less than \$10 million and either direct premium written of less than \$1 million in a calendar year or fewer than 1,000 policyholders or certificateholders of directly written policies at the end of that calendar year are exempt from this chapter for that year, unless the Commissioner makes a specific finding that compliance is necessary for the Commissioner to carry out statutory responsibilities. Insurers having total admitted assets greater than \$10 million or assumed premiums pursuant to contracts or treaties of reinsurance, or both, of \$1 million or more are not exempt.

(f) Foreign **[or alien]** insurers filing annual audited financial reports in another state, pursuant to that state's requirements for annual audited financial reports whose requirements have been found by the Commissioner to be substantially similar to the requirements of this chapter, are exempt from this chapter if the insurer meets the following conditions:

[31 PA. CODE CH. 151] Continuing Care Providers

The Insurance Department (Department) proposes to amend Chapter 151 (relating to continuing care providers) to read as set forth in Annex A. The rulemaking is proposed under the authority of the Continuing-Care Provider Registration and Disclosure Act (act) (40 P. S. §§ 3201—3225).

Purpose

The purpose of this proposed rulemaking is to update and clarify Chapter 151 with respect to the requirements for annual audits of financial statements filed by continuing care providers with the Department. This proposed rulemaking is a companion to Insurance Department Fiscal Note 11-217, which is being proposed, to clarify the requirements in Chapter 147 (relating to annual audited insurers' financial report required) with respect to audits of nonprofit and for-profit continuing care providers. Chapter 151 was adopted in 1985 to implement the act. Chapter 147 was last amended in 2001 and prescribes requirements for annual audits of all types of licensed insurers and continuing care providers. Therefore, the provisions in Chapter 151 relating to annual audits are outdated and not needed in addition to the requirements in Chapter 147.

Significant Provisions

Section 151.7(d) (relating to disclosure statements) is being amended to replace out-dated, incomplete requirements for audited financial statements with a reference to the requirements in Chapter 147. This amendment, together with the amendments to Chapter 147, is needed to establish up-to-date, detailed financial reporting requirements for nonprofit and for-profit continuing care providers under generally accepted accounting principles.

External Comments

The Department requested comments from the Pennsylvania Association of Nonprofit Homes for the Aging in drafting this proposed rulemaking and the companion rulemaking to update Chapter 147. The comments received in response to the Department's request were considered in the development of this proposed rulemaking.

Affected Parties

Chapter 151 applies to continuing care providers licensed to transact business in this Commonwealth. The provisions relating to annual audits also apply to the certified public accountants retained to conduct audits of financial statements filed by continuing care providers with the Department.

Fiscal Impact

State Government

The proposed rulemaking will update and clarify existing regulatory requirements. There will be no increase in cost to the Department as a result of this proposed rulemaking.

General Public

The proposed rulemaking has no fiscal impact on the general public.

Political Subdivisions

There will be no fiscal impact on political subdivisions as a result of the proposed rulemaking.

Private Sector

The updates in this proposed rulemaking will impose no significant costs on continuing care providers.

Paperwork

The proposed rulemaking will not impose additional paperwork on the Department and affected parties.

Effectiveness/Sunset Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*. The Department continues to monitor the effectiveness of regulations on a triennial basis; therefore no sunset date has been assigned.

Contact Person

Questions or comments regarding the proposed rulemaking should be addressed in writing to Peter J. Salvatore, Regulatory Coordinator, Insurance Department, 1326 Strawberry Square, Harrisburg, PA 17120, fax (717) 772-1969, psalvatore@state.pa.us within 30 days following the publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

Under the Regulatory Review Act (71 P.S. §§ 745.1—745.15), the Department is required to write to all commentators requesting whether or not they wish to receive a copy of the final-form rulemaking. To better serve stakeholders, the Department has made a determination that all commentators will receive a copy of the final-form rulemaking when it is made available to the Independent Regulatory Review Commission (IRRC) and the legislative standing committees.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on February 2, 2004, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the Senate Banking and Insurance Committee and the House Insurance Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

STATE BOARD OF NURSING

[49 PA. CODE CH. 21]

Approval of Diploma Programs in Transition to Degree-Granting Status

The State Board of Nursing (Board) proposes to amend § 21.51 (relating to establishment) governing the establishment of approved programs of nursing for professional nurses (registered nurses (RNs)) to read as set forth in Annex A.

A. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. Statutory Authority

Section 6.1 of the Professional Nursing Law (act) (63 P.S. § 216.1) requires the Board to establish standards for the operation and approval of nursing education programs for the preparation of RNs. The Board is authorized to establish rules and regulations for the practice of professional nursing and the administration of the act under section 2.1(k) of the act (63 P.S. § 212.1(k)). Section 6 of the act (63 P.S. § 216) requires that every applicant for examination for licensure as an RN successfully complete an approved program of professional nursing. Prior to June 29, 2002, three classes of approved programs were listed under section 6 of the act: baccalaureate degree, associate degree and diploma programs. Under the act of June 28, 2002 (P.L. 651, No. 99)

(Act 99) (effective September 29, 2002), section 6 of the act was amended to include "programs in transition from approved diploma to degree granting programs."

C. *Background and Purpose*

This proposed rulemaking was initially generated by the Board in the fall of 2001 after it considered a request by the Lancaster Institute for Health Education to approve the transition of a hospital-based nursing program to a degree-granting program, where the nursing school would no longer be under the auspices of a hospital accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). Under current § 21.51(a), the Board was unable to approve the request or assist a diploma nursing education program in this type of transition. A draft of this proposed rulemaking was sent on October 1, 2001, to 27 agencies, associations, health care entities and individuals who have been identified as interested parties or who have expressed an interest in proposed rulemakings by the Board. The Board reviewed their comments at its meetings of November 29-30, 2001, and January 10-11, 2002. Act 99 was subsequently enacted and explicitly includes programs in transition from approved diploma to degree granting programs in the category of Board-approved programs of professional nursing.

The Board seeks in this proposed rulemaking to accomplish the legislative intent of Act 99, which is to increase flexibility for hospital-based diploma programs to transition to degree-granting programs. At the same time, the Board seeks to set parameters for that transition to assure that students receive an educationally sound nursing education while maintaining eligibility for a license.

D. *Description of Amendments*

Under current § 21.51(a), a school of nursing to educate RNs must be developed under the authority of a regionally accredited university or college or a hospital approved by the JCAHO. Three types of programs currently exist to educate RNs: diploma programs, associate degree programs and baccalaureate degree programs. Diploma granting nursing education programs are conducted by hospitals, while associate and baccalaureate degree granting programs are conducted by regionally accredited universities or colleges. Hospitals wishing to establish their own degree-granting nursing education programs are unable to gain approval by the Board to operate a program until the school receives regional accreditation from the Department of Education (Department). However, a school of nursing may not receive regional accreditation until it graduates its first class. Moreover, it may take up to 6 years for an institution to gain regional accreditation from the Department. Nurses educated in this Commonwealth must satisfactorily complete a Board-approved nursing education program in order to sit for the nursing licensure examination. Thus, unless a hospital-based diploma program teams with an already-accredited college or university, it is unable to smoothly transition to degree-granting status and retain Board approval for its nursing education program.

The Board proposes to allow hospital-based diploma programs to transition to degree-granting status under the authority of a university or college pursuing regional accreditation, provided the controlling institution has begun the process of regional accreditation, in that it has been given initial approval by the Department to seek degree-granting status and shows that it continues to pursue regional accreditation. Only diploma programs

which are in good standing with the Board, maintaining full approval status under § 21.33 (relating to types of approval) for at least 3 years prior to the transition, may undertake to establish a degree-granting nursing education program. The Board proposes 3 years as a reasonable time period in which a diploma program must attain and maintain acceptable standards and adhere to the policies and regulations of the Board to undertake the transition. It is in the best interests of students and the public to ensure that the program undertaking the transition to a degree-granting nursing education program is stable, established and has maintained acceptable standards for a minimum time period.

A program wishing to transition from diploma to degree-granting status must comply with all other Board regulations pertaining to nursing education programs and submit annual progress reports to the Board. The Board does not intend to single out nursing education programs in transition for increased monitoring, but will monitor the programs to ensure that the transition is occurring smoothly and to ensure the quality of the education program. To that end, the program in transition must undergo a site visit and review by a nursing education advisor after the first class graduates and results of the licensing examination have been received. This requirement is consistent with the current practice for any new nursing education program approved by the Board, where the nursing education program is established within an existing college or university. Section 21.33 gives the Board the authority to grant initial approval status to new schools with evidence that acceptable standards are being met, for a period of time necessary to evaluate the results of the licensing examination taken by the first graduates of the school. Presuming it meets all other requirements of the regulations, the program in transition will be maintained on initial approval status for a maximum of 6 years or until it receives full approval from the Department, whereupon it may be granted full approval by the Board. The Board bases this 6-year time frame on information it received from the Department indicating that an institution may need up to 6 years to achieve full approval for regional accreditation. The Board wishes to emphasize the importance of the role of the Department in approving institutions for degree-granting status. The Board does not intend in any way to usurp the duties and powers of the Department, and, in fact, in this proposed rulemaking defers to the requirements that the Department has established for degree-granting institutions.

While the Board does not anticipate a rush by hospital-based diploma programs to begin their own degree-granting schools of nursing, the Board wishes to remove unnecessary restrictions which impede that transition, while ensuring that the quality of nursing education remains high.

E. *Fiscal Impact and Paperwork Requirements.*

The proposed rulemaking will have no fiscal impact and will not impose additional paperwork on the private sector, the general public and the Commonwealth and its political subdivisions. The proposed rulemaking will have no fiscal impact on programs seeking to transition and will impose only minimal additional paperwork on those programs beyond what is already required for establishment of a nursing education program.

F. *Sunset Date*

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

G. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 2, 2004, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

H. Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Martha Brown, Counsel, State Board of Nursing, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*. For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials

are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office indicated before an application within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning a proposed plan approval or operating permit. Comments or protests filed with Department regional offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or

local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of

receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is re-

quired by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The proposed project would include grouting approximately 25 linear feet of existing riprap on both stream banks at the upstream project limit, constructing two rock grade control structures on the stream invert equally spaced along the TRM installation and extending the existing riprap cutoff at the downstream project limit by approximately 5 linear feet. The TRM will be seeded and soil-filled and all other disturbed areas will be graded, seeded and mulched. The project would impact approximately 190 linear feet of the channel. The project is approximately 180 linear feet downstream of Falcon Drive, adjacent to St. Clair Road (Johnstown, PA Quadrangle N: 15.40 inches; W: 12.85 inches) in Lower Yoder Township, Cambria County.

SPECIAL NOTICES

Extended Application Deadline for the Recycling Markets Infrastructure Development Grant

Applications for the 2003 Recycling Markets Infrastructure Development Grant (grant) are now available from the Department of Environmental Protection (Department). Grants will be awarded on a competitive basis to qualified existing for-profit businesses and nonprofit organizations that seek to purchase machinery or equipment that will result in increased consumption of recyclable materials recovered in this Commonwealth. The Department will accept grant applications until 4 p.m. on May 7, 2004.

The success of recycling programs is directly related to demand for recyclable goods. Strong, profitable recycling based businesses are good for the environment and the economy in this Commonwealth. The grant aims to build strong markets for recycled materials in this Common-

wealth by assisting existing businesses or nonprofit organizations with increasing their use of recyclable materials in the production of finished products.

Applications for the 2003 grant program may be obtained by contacting Jeff Bednar, Bureau of Land Recycling and Waste Management, (717) 787-7382, jbednar@state.pa.us. Applications for the 2003 grant program are also on the Department's website: www.state.pa.us (DEP Keyword: Market Development).

Extended Application Deadline for the Recycling Markets Center Grant

Applications for the Recycling Markets Center Grant (grant) are now available from the Department of Environmental Protection (Department). With this program, one grant will be awarded on a competitive basis to a qualified nonprofit organization or university for the establishment, support and oversight of the Pennsylvania Recycling Markets Center (Center). The Department will accept grant applications until 4 p.m. on May 28, 2004.

Businesses need marketing information to identify new opportunities for smart growth since the information enables businesses to develop strategic plans that chart a course to profitability. Developing reliable recycling market information involves: the compilation of economic, political, regulatory, societal and technological data; the interpretation of how current and anticipated events will impact business practices and relationships among solid waste, scrap and manufacturing industries; the identification of those business practices that need to be adjusted; and good communication skills to transfer knowledge to a targeted audience. Furthermore, to remain competitive in the ever-changing recycling environment, recycling busi-

nesses need to be introduced to the latest technologies that increase efficiency and productivity in collection, processing and manufacturing activities.

The Department sees the need to assure that recycling market information is available to businesses in this Commonwealth. To fulfill this need, the Department is seeking a nonprofit organization or university to establish, support and oversee the Center. This Center will serve to expand and develop more secure and robust markets for recovered secondary materials by helping to overcome market barriers and inefficiencies.

Applications for the grant program may be obtained by contacting Georgia Kagle, Bureau of Land Recycling and Waste Management, (717) 787-7382, gkagle@state.pa.us. Applications for the grant program are also on the Department's website: www.state.pa.us (DEP Keyword: Market Development).

**Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs)
for the Brubaker Run Watershed in Cambria County**

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931.

The Department of Environmental Protection (Department) is holding a public meeting on Tuesday, February 17, 2004, at 6:30 p.m. at the Saint Thomas Church in Ashville, PA to discuss and accept comments on a proposed TMDL. The proposed TMDL was established in accordance with the requirements of 1996 Section 303(d) of the Clean Water Act. Two stream segments in the Brubaker Run Watershed have been identified as impaired on the 1996, 1998 and 2002 Pennsylvania 303(d) lists due to depressed pH and/or high concentrations of metals. The listed segments and miles degraded are shown in the following table:

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
26489 (Segment 4026)	Brubaker Run	2.9
26489 (Segment 990819-0920-LMS)	Brubaker Run	7.23

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron and manganese) and pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion Value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
pH	6.0—9.0	N/A

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal in the 20th century. The effects of this are still present. The TMDL consists of both load allocations (LA), which are made to nonpoint sources of pollution and waste load allocations (WLA), which are made to point sources of pollution.

The TMDL was developed using Monte Carlo Simulation (MCS) to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. MCS allows for the expansion of a dataset based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected throughout 2001.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Miles Baird at (814) 472-1900 between 8 a.m. and 3 p.m., Monday through Friday, at the Cambria District Mining Office, 286 Industrial Park Road, Ebensburg, PA 15931, mbaird@state.pa.us. Directions to the meeting place can also be obtained through this contact.

The TMDL can be viewed and printed by accessing the Department's website at www.dep.state.pa.us (DEP Keyword: TMDL).

Written comments will be accepted at the previous address and must be postmarked by March 31, 2004. Persons who plan to make a presentation at the public meeting should notify the Department by 4 p.m. on Tuesday, February 10, 2004. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs) for the Cucumber Run Watershed in Somerset County

Greensburg District Mining Office: Watershed Manager; Armbrust Professional Center, R. D. 2 Box 603-C, Greensburg, PA 15601.

The Department is holding a public meeting on March 4, 2004, at 7 p.m. at the Confluence Community Center, Confluence Borough Building in Confluence, PA to discuss and accept comments on a proposed TMDL, established in accordance with the requirements of 1996 Section 303(d) of the Clean Water Act. Two stream segments in the Cucumber Run Watershed have been identified as impaired on the 1996, 1998 and 2002 Pennsylvania 303(d) lists due to depressed pH and high concentrations of metals. The listed segments and miles degraded are shown in the following table:

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
38817 (Segment 4838)	Cucumber Run	1.7
38817 (Segment 990102-1035-TVP)	Cucumber Run	1.7

The proposed plan provides calculations of the stream's total capacity to accept metals and pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion Value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
pH	6.0—9.0	N/A

The primary pollutant source for the watershed is abandoned mine workings. Portions of this watershed were mined for coal in the mid to late 20th century. All of the allocations made in the TMDL are LA that are made to nonpoint sources of pollution.

The TMDL was developed using MCS to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. MCS allows for the expansion of a dataset based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected in 2003.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Ron Horansky at (724) 925-5500 between 8 a.m. and 3 p.m., Monday through Friday, at Armbrust Professional Center, R. D. 2 Box 603-C, Greensburg, PA 15601, rhoransky@state.pa.us. Directions to the meeting place can also be obtained through this contact.

The TMDL can be viewed and printed by accessing the Department's website at www.dep.state.pa.us (DEP Keyword: TMDL).

Written comments will be accepted at the previous address and must be postmarked by April 7, 2004. Persons who plan to make a presentation at the public meeting should notify the Department by 4 p.m. on Wednesday, February 25, 2004. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

Under 75 Pa.C.S. § 1547(c)(4) (relating to chemical testing to determine amount of alcohol or controlled substance), as amended by the act of September 30, 2003 (P. L. 120, No. 24), the Department of Health (Department) is publishing a notice of the minimum levels of Schedule I, II and III controlled substances or their biotransformation products (metabolites) that must be present in a person's blood for the test results to be admissible in a prosecution for a violation of 75 Pa.C.S.

§ 1543(b)(1.1), 75 Pa.C.S. § 3802(d)(1), (2) or (3) or 75 Pa.C.S. § 3808(a)(2)) (relating to driving while operating privilege is suspended or revoked; driving under influence of alcohol or controlled substance; and illegally operating a motor vehicle not equipped with ignition interlock).

Although there are hundreds of controlled substances in Schedules I, II and III, detection limits are listed only for commonly abused controlled substances for which testing procedures are readily available. The minimum concentrations specified are those that can be reliably measured by laboratories approved by the Department to test blood for controlled substance content.

Clinical laboratories that operate in this Commonwealth that perform analyses of blood to determine controlled substance content must be approved by the Department in accordance with 28 Pa. Code § 5.50 (relating to approval to provide special analytical services). The approval process is conducted in much the same manner as the Department's approval of laboratories to test blood for alcohol content, as described in *Commonwealth v. Brown*, 631 A.2d 1014 (Pa. Super. 1993). This approval process requires laboratories to demonstrate an acceptable level of proficiency in determining the presence of controlled substances or their metabolites in blood.

This testing is a two-step process. The first step involves the screening of blood using a relatively rapid and inexpensive technique to presumptively determine which specimens may contain the substance or a metabolite of the substance for which the blood is screened. The second step utilizes a more sensitive and specific procedure to substantiate the presence and concentration of the substance or its metabolite that was presumptively detected in the initial screening procedure.

Confirmatory analyses employed to substantiate the presence of a drug or drug metabolite generally focus on identifying and quantitatively determining the concentration of the parent drug or a primary metabolite if extensive biotransformation occurs. The detection limits listed were developed by reviewing the minimum reportable concentrations for confirmatory analyses that laboratories in the Department's approval program specified they could measure. The concentrations listed are the levels that all laboratories approved by the Department to test blood for controlled substance content can reliably determine.

The list contains only those substances that are included in the Department's proficiency testing program designed to provide assurance that laboratories approved to test blood for controlled substance content can reliably identify and measure the concentrations of drugs and their metabolites in blood. The Department will publish superseding notices as it determines the detection limits for other Schedule I, II and III controlled substances, or as the need otherwise arises.

DEPARTMENT OF TRANSPORTATION

Finding Berks County

Under section 2002(b) of The Administrative Code of 1929 (71 P.S. § 512(b)), the Secretary of Transportation makes the following written finding:

The Federal Highway Administration and the Department of Transportation (Department) plan to replace the existing single lane bridge on SR 0143 over Maiden Creek in Richmond, Greenwich and Perry Townships, Berks County.

The subject project will require use of approximately 0.28 hectare (0.71 acre) of the National Register-eligible Virginville Historic District.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize effects. To minimize the amount of Section 4(f) protected property impacted by the project, the Department will return the area disturbed by the temporary bridge to its preconstruction setting. The Department will also ensure that the project design for the permanent bridge is compatible with the historic and architectural qualities of the Virginville Historic District and is responsive to the recommended approaches to new construction in the *Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings* (United States Department of the Interior, National Park Service, 1990).

The Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929, has concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effect.

Finding Jefferson County

Under section 2002(b) of The Administrative Code of 1929 (71 P.S. § 512(b)), the Secretary of Transportation makes the following written finding:

The Federal Highway Administration (FHA) and the Department of Transportation are planning the construction of approximately 5 miles of two-lane arterial roadway partially on and off existing roadway alignments. The project also includes construction of a new interchange on Interstate 80 in Jefferson County.

An Environmental Assessment (EA) was prepared to evaluate the potential environmental impacts caused by the subject project. The FHA issued a Finding of No Significant Impact on January 12, 2004, determining that the Modified Revised Western Alternative will have no significant impact on the human environment. The EA and supporting documentation find that there is no practicable alternative to construction of the preferred alternative, and the proposed action includes all practicable measures to minimize harm to the environment that may result from the proposed project.

Mitigation measures will be taken to minimize harm as stipulated in the EA. The proposed project has no Section 4(f) use.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered, and it has been concluded that all reasonable planning was completed to avoid, minimize or mitigate the environmental effects that may result from the construction of this project.

No adverse environmental effect is likely to result from the proposed action.

FISH AND BOAT COMMISSION

Classification of Wild Trout Stream Sections

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout stream sections. The listing of a stream section as a wild trout stream section is a biological designation that does not determine how it is managed. The Commission uses many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the list of wild trout stream sections. The Executive Director, with the approval of the Commission, will from time to time publish the list of wild trout stream sections in the *Pennsylvania Bulletin*. A notice soliciting comments regarding the list was published at 33 Pa.B. 6292 (December 20, 2003). At its quarterly meeting on January 27, 2004, the Commission decided to defer consideration of the list until its April 2004 meeting and to solicit public comments until April 9, 2004.

Persons with comments, objections or suggestions concerning the classification of the stream sections listed may submit them in writing to Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 by 4 p.m. on April 9, 2004. Comments submitted by facsimile will not be accepted. Comments also may be submitted electronically to ra-pfbcregs@state.pa.us. A subject heading of the proposal and a return name and address must be included in each transmission. In addition, all electronic comments must be contained in the text of the transmission, not in an attachment. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

HISTORICAL AND MUSEUM COMMISSION

General Operating Grants Application Submission Deadline

The Historical and Museum Commission (Commission) announces that the application submission deadline for

general operating support grants (grants) for FY 2004-2005 is April 1, 2004.

Grant applications are available online through www.artsnet.org/phmc. Applications are to be submitted using the electronic grant process.

Grants are divided into two categories—museums and official county historical societies.

Grants for museums require no matching funds and are restricted to museums with annual operating budgets exceeding \$100,000. The grants are administered on a competitive basis and are made annually based on a peer review process. Museums must be located in this Commonwealth, have tax-exempt status, be incorporated and have been exhibiting to the public at least 2 years prior to the submission of the grant application. Grant awards will not exceed \$150,000 or 10% of the museum's annual operating budget if less than \$1.5 million.

Grants for official county historical societies are restricted to historical organizations that are certified by county governments as official county historical societies for the respective counties. The society must receive funds from the county government to assist in paying the operating expenses of the organization. The grant is noncompetitive and requires a 50/50 cash match. Grant awards will not exceed \$10,000.

Inquiries concerning the grant application process should be directed to Edith D. Walsh, (717) 214-8649, ewalsh@state.pa.us.

The Commission Grant Program, through its funding to nonprofits and local governments, has made a major contribution to supporting downtown and neighborhood revitalization, promoting heritage tourism and encouraging economic development across this Commonwealth.

Tentative Order

Public Meeting held
January 29, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzigrilli; Wendell F. Holland

Verizon Pennsylvania Inc. Petition and Plan for Alternative Form of Regulation under Chapter 30; 2000 Biennial Update to Network Modernization Plan (Amendment to NMP); P-00930715F0002

Verizon Pennsylvania Inc. Petition and Plan for Alternative Form of Regulation Under Chapter 30; 2000 Biennial Update to Network Modernization Plan (Petition For Reconsideration of May 15, 2002 Order); P-00930715

Tentative Order

By the Commission:

By an Opinion and Order entered September 17, 2003 (Order), we granted Verizon Pennsylvania Inc.'s (Verizon PA) Petition to amend the Network Modernization Plan (NMP) portion of its Chapter 30 Plan, as modified by that order. The Order disposed of exceptions filed by various parties to the Recommended Decision of Administrative Law Judge Larry Gesoff, which was issued on March 26, 2003, in the previously captioned proceeding.

Following issuance of the Order, Commission staff found that an inconsistency exists between the target dates in the Order for Verizon PA's broadband deployment commitments and the due dates for the biennial updates to confirm compliance. All the target dates established in the Order (except for the last one in 2015) for meeting Verizon PA's broadband deployment commitments are as of December 31st of even-numbered years, but the Order does not change when Verizon PA has to file its biennial updates. Biennial updates are currently required to be filed in June of even-numbered years and report results as of December 31st of the prior calendar year (which are odd-numbered years). See September 17, 2003, Order at 21 and 82, Ordering Paragraph No. 8.

The net effect is that Verizon PA will be reporting compliance with deployment commitments as of the end of odd-numbered years, which will make it difficult, if not impossible, to audit Verizon PA's compliance (consistent with Ordering Paragraph No. 16 of the Order) with the even-numbered year milestone commitment levels contained in the deployment schedule. This, in turn, will effectively preclude our pursuit, as necessary, of appropriate enforcement steps for any commitment shortfalls. In short, the current time lines give Verizon PA an extra year to meet its milestone commitments before it actually has to report its results.

The Commission believes the best approach to correct this situation, and thereby increase the effectiveness of the audits, is to synchronize the target and filing dates by changing the due dates for biennial updates to June of odd-numbered years. To accomplish this change, we believe the appropriate course is to follow section 703(g) of the Public Utility Code, 66 Pa.C.S. § 703(g), relating to, among other things, amending a prior final order of the Commission. This section requires that notice and an opportunity to be heard must first be provided to interested parties to the proceedings before the amendment can become effective.

Given that the proposed change merely changes when biennial updates are to be filed with the Commission, we do not believe an evidentiary hearing is necessary to effectuate this change unless an interested party provides valid grounds for the need for a hearing during the 30-day notice period provided herein. Therefore, this Tentative Order will become final at the conclusion of the notice period absent any other adverse comment being received by the Commission.

We also believe this filing date change is supported by another important consideration. In the instant matter, Verizon PA's amendment effected a major, substantive change in the NMP originally approved in 1994. The substantive modification to Verizon PA's NMP occurred in

2003, and, therefore, it is reasonable to expect that biennial updates would be filed every 2 years thereafter, that is, in future odd-numbered years.

Finally, this Tentative Order does not affect our previous determination in our September 17, 2003, Order that Verizon PA file a report in 2004 because the company has not filed a biennial update since June 2000. The 2004 Biennial Update will contain data for the period January 1, 2000, through December 31, 2003. The following chart summarizes the schedule Verizon PA will follow relating to the filing of biennial NMP update reports with the Commission:

<i>Report Date Coverage Period</i>	<i>Report Filing Due Date</i>
January 1, 2000—December 31, 2003 (4-year report)	June 2004
January 1, 2004—December 31, 2004 (1-year report)	June 2005
January 1, 2005—December 31, 2006 (2-year report)	June 2007
January 1, 2007—December 31, 2008 (2-year report)	June 2009
January 1, 2009—December 31, 2010 (2-year report)	June 2011
January 1, 2011—December 31, 2012 (2-year report)	June 2013
January 1, 2013—December 31, 2014 (2-year report)	June 2015

As previously stated, interested parties will have a 30-day period to file comments to this proposed change of timing for filing biennial updates. If no adverse comments are received, this Tentative Order will become final at the end of this comment period; *Therefore,*

It Is Ordered That:

1. The due dates for Verizon Pennsylvania Inc.'s biennial NMP updates are hereby tentatively changed to June of odd-numbered years starting in 2005.

2. Verizon Pennsylvania Inc., consistent with Ordering Paragraph No. 18 of our September 17, 2003, Order at this docket, will file its 2002 Biennial Update in June 2004 containing data for the period January 1, 2000, through December 31, 2003.

3. The Secretary serve a copy of this Tentative Order upon all parties on the service list in this docket and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

4. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, this Tentative Order shall become final without further action by the Commission.

Secretary
